# PRINCIPAL BOARD'S STATEMENT

## **2018 was extremely remarkable for us!**

Every student, staff member and family were essential to make our first school year unforgettable.

This yearbook is a tribute to the founding students of Altos do Laranjal Unit and records not only the discoveries of this year, but the first steps of our history!

Here are gathered official photos of all groups, from kindergarten to high school, our coordinators, teachers and monitors as well as the best moments (from 2018) we had this past year.

ENIO FERREIRA, PRINCIPAL

## **2018 was undoubtedly a special year for Santa Monica family!**

With the beginning of the school year at Altos do Laranjal Unit, we had the great responsibility of thinking better every day and also of renewing ourselves at every moment to provide the best for our students!

The importance of these nearly 400 families who believed in us and brought their children to Altos do Laranjal Unit is immeasurable for us.

We are grateful to our first students! Lovingly, they received a special distinction: they will always be the founding students of Altos do Laranjal Unit!

We will always remember with love and affection the first year at Altos do Laranjal Unit! The smile of each student, the commitment of our employees and the partnership with the founding families made this year even more unforgettable! Our feeling is gratefulness to everybody who shared with us the unique experiences of this first year! The sense of accomplishment and do even more are feelings which become every year more and more special!

ROSIMEIRE FERREIRA, PEDAGOGICAL PRINCIPAL

Our family has grown! In 2018, we welcomed our founding students for the first Altos do Laranjal Unit school year and shared many unforgettable moments! In addition to many special memories, this yearbook also illustrates a perspective for our future as school. We hope to continue learning together and walking in this successful path, just as we did in our first year!

MÔNICA BOTELHO, ADMINISTRATIVE MANAGER

## COORDINATION

Daiani Garcia, Lucila Moura and Márcia Pereira

Pedro Henrique Ferreira and Elizangela Laroque

Being an educator is being a dreamer, is teaching how to dream with faith, resilience and keep the spirit of cooperation. After all, we are today what we wish for tomorrow. Teaching consists in being ready to put yourself in the other self. Being by the side and in favor of the one who believes that can make a difference in life. It is showing example, confidence, faith and leading the ways.

## HEALTHY EATING AND ORAL CARE

During the year, the children from Maternal period learned how to recognize some healthy habits! In one of the activities about health, they learned that food can also influence on oral care and also they learned techniques to brush their teeth in the right way.

## COOKING TIME

The Gourmet Kids space inspired the Maternal students to have delicious lessons! Gastronomic experiences taught the little ones to work in teams through recipes like carrot sweets, fruit cocktail and strawberry smoothie!

## 150 BILINGUAL TEACHING DAYS

Through our bilingual education program, our students have a daily contact with the English language, they also participate in unique experiences and prepare themselves to reach the top of the world! A complete program with international certification!

## PLAY AREA

The lessons in the Play Area provided moments of interactivity and learning! Through the interactive boards, the children accessed playful games and exercised skills such as attention, motor coordination and concentration. They had fun with investigating games, coloring, geometric figures, alphabet and more!

## COLORS AND SHAPES

2018 was filled with moments of fun and learning! The concept of geometric shapes became even more enjoyable with the "colors and shapes" game, in which students followed the teacher's commands and moved the body members in the indicated colors and geometric shapes.

## PEDAGOGICAL GARDEN

Another transforming experience of our bilingual education! After experiencing the process of vegetables development, the students visited the pedagogic garden and learned to pronounce the name of some seasonings and sauces in English.

## EDUCATIONAL ROBOTICS: LEGO EDUCATION

There were many moments to learn by doing. Stimulating challenges and unique experiences using parts from the Lego Education robotics suite. In one of the proposed activities, the students built "The Giant's House" and exercised notions of grandeur.

## OFFICIALLY LEADERS

After getting to know and practicing the leadership habits of the Leader in Me program through play activities, the students participated of a ceremony and received certificates from the Farol Staff.

# MATERNAL 2

Leonardo Beltrão Gelain Santos da Trindade, Arthur Ferreira Botelho, Francisco da Silva Lucas, Joaquim Neis Rossi, Diego Fortunato Guarienti, Felipe Tolentino Bertoldi, Miguel Alfonsin da Silva, João Pedro Menegotto Cavalheiro, Gustavo Bottermund Jougard, Joaquim Franken Corrêa, Ana Helena Verdia Oliveira Costa, Valentina Merlin Coelho, Antônia Jougard Antonello, Nina Monquelat Bolzoni, Helena Soares Chaves, Alice Henriques de Farias, Sophia Bublitz Jougard, Estela Quintanilha de Oliveira, Isabella Peixoto Couto Lucchetta and Antonela Bottermund Jougard.

Kindergarten Education is a task that involves uncountable feelings, it is teaching in the same measure in which we learn it, is giving love and receiving twice as much, it is seeing in each child the adult of the future, enabling means they can grow without forgetting the purity and the essence of being a child. I believe in a better world and I know that for that we must prepare our children.

TEACHER ANDRESSA DOS SANTOS

# GROUP J11

Rafael Sengik Kempfer, Maximiliano Ferronato, Levi Grassi Mendes, Afonso Ledesma Rodrigues, Pedro Bittencourt de Carvalho Leite, Pedro Henrique Souto Del Pino, Nicholas Li Martin, Pietro Lambrecht Portantiolo, Antônio Nunes Horta, Lucas Grazziotin Souza, Marina Quintanilha de Oliveira, Isabella Rosa Teixeira, Helena Flores Romani, Alice Soares de Avila, Antônia França Marques Dias, Aurora Wolff Pinto Martins, Maria Eduarda Malafaia Elste and Maria Eduarda Santos Gomes.

Working with kindergarten is very rewarding and challenging when it give us a world full of magic and discoveries. Besides teaching, I learned in every moment with each one of my students, with their attitudes and peculiarities. I'll keep all these great learnings forever.

TEACHER SHEILA BRAGA

# GROUP J12

Bruno da Silveira Garcia, Sergio Luiz Braga Netto, Joaquim Schrank Botelha, Cândido Moacir Gaffrée Deibler Neto, João Pedro Lucca Jouglard, Miguel Braga Fernandez, Otávio Pernas Fleischmann, Henrique Silva Romano Porto, Bernardo Martins Perez, Mariana Gonçalves de Souza, Isadora Prestes Borges, Mariana Gonçalves Bandeira, Maria Luiza Yazze Gonçalves, Maria Laura Ayub Amaral, Pietra Gonçalves Corrêa, Laura de Souza Rocha, Aníta da Rocha Freitas, Laura Rozisky de Azevedo and Cecilia Caruccio Caetano.

Working with the 12 group in 2018 was a gift for me, it gave me many opportunities to make new experiences and to exchange learning. As the year went by, love was the basis of our coexistence. Thank you for everything, class 12, you will always be in my heart.

## ESTIMATES GAMES

Our 1st school year has provided incredible experiences! In the Science Space students were challenged to calculate the amount of water glasses needed to fill a bottle, exercising the concepts of capacity in liters.

## NEWTON'S DISC

A colorful and inspiring experience, just like all the others we have developed during the year! In this class, students constructed a Newton's Disc and applied the relation between color and luminosity.

## PHOTOGRAPHING THE SCHOOL

Many moments have been remarkable throughout the year! During the Art class, students observed paintings with different scenarios and were inspired to photograph their favorite school environments!

## MUSIC CLASS

A school year full of artistic moments! Music classes helped students to express themselves through music and some body language exercises. Another important moment was learning the senses of rhythm.

## THE LEADER IN ME

Inspired by Philosophy class, the students talked about responsibility and exercised the first leadership habit of the Leader in Me project: be proactive. They took turns to take care of a bonsai tree.

## COMPUTER LAB

Our students enjoyed moments of technological immersion and learning! In the Computer Laboratory, they accessed the digital environment of Positivo On and worked in exercises about fractions and numerical classes.

## ROBOTICS CLUB

Our students have learned a lot with HANDS ON activities! After reflecting on sustainable energy and wind turbines, the group used parts from the Lego Education robotic set to build windmills.

## ENGLISH ON

The Bilingual Teaching program provided unique experiences! The students visited the English On space and worked on the interactive board to solve exercises about hours, exercising pronunciation and vocabulary.

## SCIENTIFIC AREA

The Science Space has inspired many sensational experiences! To review the concepts of cardiovascular and respiratory systems, the students observed a heart and a bovine lung and identified their main characteristics.

## VIRTUAL REALITY

Educational technology resources have transformed classes into incredible moments! Students wore virtual reality glasses and, virtually, visited the Alhambra Museum in Spain to observe the works exhibited and understand the use of warm and cool colors.

## AUGMENTED REALITY

Inspired by Colab Space, students enjoy the Geography class to explore the augmented reality feature and also visualize contents about atmosphere and seasons in a three-dimensional way. Another highlight of this incredible school year!

## IN THE WISDOM UNIVERSE

The year was also highlighted by citizenship practices! Through the "In the Wisdom Universe" project, students learned about the limitations of the elderly and visited the Pelotas Retirement House in order to exchange experiences with the people from there. Virtual reality glasses made the visit more dynamic.

## FLAVORS OF BRAZIL

The Gourmet area was the place for delicious experiences. In order to understand more about the regions of Brazil, the students explored typical dishes from some states and they also talked about the culture where the dish was created.

## GIANT CHESS

Our first school year was filled with innovative teaching methodologies! Students learned the concepts of Cartesian plan in practice and they were also able to use the giant chessboard to apply the content. The pieces were moved according to the coordinates and points marked on the board.

## ROBOTICS CLUB

Technology and innovation were also present during the classes. The students learned by doing and applied the concepts of balance and strength building a forklift robot with the pieces of the Lego Education robotic set.

## MATHEMAGIC

Our interdisciplinary labs set the stage for incredible activities! In the space of Mathemagic, the students participated in a game of Battleship and they used the periodic chemical table as a board to review the chemical elements.

# 6th GRADE

Thiago Garcia Tavares, João Gabriel Cabreira Pereira, Filipe Noguez Lopes, Rafa Rodrigues Maciel, Martin Simon Junior, Giuseppe Nogueira Rodrigues Pereira, Izabela Marina Arantes, Carolina Senhorin Brasil, Gabriela Alves Zaltron and Jullia de Quadros.

Dear students, together we opened the doors of our school in order to bring our experiences, wisdom and experiences. We created a group and we multiplied our knowledge and you, being part of this large group, made our teaching-learning process more meaningful, more positive. You are part of our history construction.
